

School is closed

School closes at the weekends, this is ok.

School closes when it is holiday time, this is ok.

School is closed now this is different, this is ok.

School is closed because there is a virus that may make

us poorly.

School will open again when the virus has gone and it is

ok to go back to

school.

You will stay at home while the school is closed.

You may have some school work to do at home, this is

ok.

Staying at home will help to keep you well and

healthy.

You will be safe and happy at home.

If you are worried about this you can talk to your family.

You will try to remember this is ok and you will try to

stay calm.

Staying calm is a good feeling.
